

The figure displays two box plots side-by-side, representing the distribution of a variable named 'number' for two categories: 'low' and 'high'. The y-axis is labeled 'number' and ranges from 0 to 100. The 'low' category (left) has a median around 10, with a box spanning from approximately 5 to 20. The 'high' category (right) has a median around 15, with a box spanning from approximately 10 to 25. Both distributions are right-skewed, with many outliers extending upwards. The 'low' category has a notable outlier at 100, while the 'high' category has outliers at approximately 30, 40, and 50.
