

A box plot comparing the number of 'yes' responses for two groups, 0 and 1. The y-axis represents the count of 'yes' responses, ranging from 0 to 25. The x-axis shows the two groups. Group 0 has a median of 10, with a box from 8 to 12. Group 1 has a median of 12, with a box from 10 to 14. Both groups show a distribution of responses with some outliers.

Group	Min	Q1	Median	Q3	Max	Outliers
0	6	8	10	12	14	16, 18, 20, 22, 24
1	10	10	12	14	16	18, 20, 22, 24
